Ashlyn Wu

Computer Science

a74wu@uwaterloo.ca
(647) 636 1577
Mississauga, ON

Languages

C++, C, React, JavaScript, Java, HTML / CSS, Bootstrap 4, SQL Databases, Azure Machine Learning, Git

Tools & Technologies

Vue.js, Hibernate, Figma, Adobe Photoshop, Adobe After Effects, Microsoft Azure (certified AI 900 & AZ 900)

EXPERIENCE

Full Stack Developer - CI Technologies

May 2022 - Aug 2022 | Vancouver, BC

- Architected and developed **highly requested** customer feedback portal using **Java**, **Vue.js** and **SQL** used by **50+ police agencies** to increase safety and consumer satisfaction
- Developed **200+ automated testing scripts** using **TestNG** and **Java**, covering over **10+ new features**
- Launched feature into **beta**
- Created **wireframes**, **storyboards** and **mockups** for corresponding account pages using **Figma**

Machine Learning Developer - AltaML / Microsoft

May 2021 - Aug 2021 | Mississauga, ON

- Worked on an **artificial intelligence** use case to **improve user experience**
- Performed **sentiment analysis** and used **natural language processing** with **Azure Machine Learning** to classify comments based on negativity to an accuracy of **80%** to remove negative comments

PROJECTS

Chess Game - C++ / XWindow

Nov 2021 - Dec 2021

- **Designed** and **developed** an online functional chess simulator that enables a playable software to compete against both humans and computers with **3 levels** of difficulty
- **Developed algorithms** for computer opponents to prefer strategic moves which increases the likelihood of winning
- **Designed** a **graphical user interface** using **XWindow** to display the working chessboard

Personal Website - HTML / CSS / JavaScript

Dec 2020 - Current

- **Designed**, **developed** and **deployed** my personal portfolio using **HTML**, **CSS** and **JavaScript**

Easy Calculator - HTML / CSS / JavaScript

Dec 2020

- **Designed**, **developed** and **deployed** a calculator app using **HTML**, **CSS** and **JavaScript** that can perform basic mathematical operations such as addition, subtration and division

EDUCATION

Bachelor of Computer Science

University of Waterloo

Sept 2020 - 2025, Waterloo

Relevant Courses: Object-Oriented Software Development (C++), Data Structures and Algorithms

Activities & Awards

University of Waterloo President's Scholarship (2020), FIRST Robotics Programmer (2019-2020), Nahani Way Robotics Lead Mentor (2019-2020)
